SOFTWARE DEVELOPER

PROFILE

Software developer with a focus on the JavaScript ecosystem. I help businesses safely leap into the digital era. From promoting your services via a simple website to streamlining your operations with custom applications, you can count on me. I am most proficient with React.js on the front end and NodeJS/Express on the back end and I can learn new technologies quickly.

EXPERIENCE

FREELANCE SOFTWARE DEVELOPER

Self-employed (Sep 2020 - Present)

I offer software development services. I can realize various types of websites and applications. Using the right tool for the right job, I will turn your business needs into a functional solution.

TECHNICAL SUPPORT SPECIALIST

INTELCIA (Sep 2016 - Sep 2020)

My responsibilities included responding to phone calls with a focus on understanding well the technical demands submitted to me by customers. I solved their issues and ensured they were fully satisfied through customer relationship management strategies. It also sharpened my skills in teamwork and work under pressure. The field was networking and telecommunications.

IT INTERN

SODREA ASSURANCES (Jul 2014 - Aug 2014)

- I Automated data entry tasks via Excel making them faster
- I was responsible for hardware and software maintenance
- I was responsible for Network Maintenance and troubleshooting
- I welcomed customers and established car insurance contracts

SKILLS

- Problem-solving
- software development processes
- Strong focus on the **Javascript** ecosystem (ESNext, React, Sass, NodeJS, Express, MongoDB)
- Fluent in French, English, and Spanish
- Teamwork via tools like Git, Slack, and remote-friendly technologies
