OBJECTIVES

- Leverage acquired knowledge and experience to achieve organizational objectives as a skilled Software Engineer.
 - Foster valuable work experiences and establish meaningful connections with professionals in the industry.
 - Excel in an environment that encourages personal growth and presents challenges to push my boundaries.
 - Join an organization that values employee well-being and fosters a supportive working culture.
 - Deliver significant value to the organization and its clients through my contributions.
-

PROFESSIONAL EXPERIENCE

KENYA PIPELINE COMPANY LTD HR ASSISTANT TRAINEE

July 2017 - April 2018

- Handled discrete information related to changes in organization, performances and appraisals
- Compiled and prepared reports and documents pertaining to personnel activities.
- Updated employee files to document employee actions and information on payroll and benefits.
- Reviewed and corrected job offer letters for completeness and accuracy before approving delivery.
- Reviewed human resources paperwork for accuracy and completeness by verifying, collecting and correcting additional data.
- Prepared and set up for new employee orientations.
- Kept the organization's personnel records accurate with each employee's current personal, salary and incident information.

ADRENALINE ADVENTURES LTD

Feb 2020 - Jan 2023

WEB ADMINISTRATOR

- As the sole Web Admin, I held complete responsibility for the end-to-end maintenance of the company website. This included both front-end and back-end tasks, ensuring that the website remained up-to-date and fully functional.
 - Worked closely with the design and product teams to implement new features, address issues, and align the website with the company's objectives. My collaborative approach ensured that the website consistently met business requirements and user expectations.
 - Proactive Troubleshooting: Actively identified and resolved technical challenges, employing effective problem-solving and debugging techniques. By promptly addressing any issues, I ensured minimal disruptions and maintained the website's reliability.
 - Proficiently managed the technology stack for the website, which involved maintaining HTML, CSS, JavaScript, and front-end frameworks, as well as managing back-end technologies such as Node.js. I continuously improved the website's performance and security by incorporating the latest web technologies.
