Summary

In my current and previous roles, I have worked on a range of projects, including developing scalable web applications, designing and implementing APIs, and building data analysis tools. I have experience with both front-end and back-end development, and I am comfortable working with popular frameworks such as Vue, and Node.js.

Additionally, I am committed to staying up-to-date with the latest industry trends and best practices. I have a continuous learning mindset and am always looking for opportunities to expand my knowledge and skills. I am also experienced in Agile methodologies, including Scrum and Kanban, and I have used tools such as Jira and Trello to manage project workflows.

Overall, I am a dedicated and driven software engineer who thrives in a dynamic and collaborative work environment. I am excited to leverage my skills and experience to contribute to the success of the organization.

Experience

Software Engineer

TrendBizTech

Jul 2021 - Present (2 years 3 months)

- Designed and developed a robust e-commerce platform for an online retail store that resulted in an increase in sales by 20%.
- Built custom modules for the company's customer management system that enabled them to track their customers' interactions more efficiently.
- Developed reporting tools for analyzing data on user behavior

Software Engineer Intern

Keble (Techstars '22)

Feb 2021 - Apr 2021 (3 months)

- Worked on the development of backend services using Node.js.
- Assisted senior developers in creating RESTful APIs with Express.js.
- Designed and implemented database schema using MongoDB.
- Utilized Postman to test API endpoints and Swagger to document them.
- Wrote unit tests for API endpoints using Jest framework.

Program Facilitator

DSNai - Data Science Nigeria

Feb 2020 - Apr 2020 (3 months)

- Co-facilitated an introductory data science program across campuses.
- Trained and deployed machine learning models.
- Lead team in an AI hackaton at zindi.africa and won a bronze metal.

Education

Michael Okpara' University of Agriculture Umudike

Bachelor of Engineering - BE, Computer Engineering

2014 - 2019

Licenses & Certifications

Soft skills training - Jobberman Nigeria

3955772

UKNG/Decagon Internship - UK-Nigeria Tech Hub

UKNGDCHQ4695DEV

Skills

Test-Driven Development • Front-End Development • Communication • Databases • Back-End Web Development • Debugging • Sprint Planning • Attention to Detail • Artificial Intelligence (AI) • Machine Learning
