Aibueku Precious Okwuoma
Location: Remote
Email: aibuekuprecious@gmail.com
LinkedIn: https://linkedin.com/in/aibuekuoprecious

Objective:
In 2035, Africa will have the largest workforce in the world, and I am committed to empowering this untapped resource. As an AI enthusiast, I am excited to contribute to the vision of the African Leadership Group. I believe in harnessing Africa's human capital to transform the continent through education and innovation.

Education:
ALX | 2023
Software Engineering Certification (Ongoing)
Relevant Coursework: Data Structures, Algorithms, C Programming, Python, MySQL, Bash, System Engineering, DevOps, Technical Writing, Networking, and more

Experience:
Aspiring Applied AI Curriculum Lead
African Leadership Group
Remote | [Proposed Start Date]

Potential Contributions:
- Intend to design and launch a robust Applied AI curriculum, with a strong focus on learner satisfaction.
- Aim to seamlessly integrate AI concepts into existing Software Engineering programs, enhancing the overall educational experience.
- Aspire to establish a significant social media presence, attracting an interested audience keen on AI education.
- Eager to foster learner engagement on various platforms, creating a thriving online community.
- Committed to consistently delivering high-quality AI projects, promoting hands-on learning and experimentation among learners.

Skills:
- Programming: Proficient in Python, experienced with various AI tools.
- Languages: Fluent in English.
- Social Media: Proficient in managing and creating content for various platforms.
- Project Management: Demonstrated ability to manage multiple projects and meet deadlines.
- Communication: Strong written and verbal communication skills.
- Adaptability: Comfortable working remotely and collaborating with a global team.

Additional Information:
- Willing to travel to across Africa at least once a year.
- Flexible work schedule to accommodate global team collaboration.
