LANGUAGE

- Amharic (Native)
- English (Fluent)

SOFT SKILLS

- Critical-Thinking
- Attention to details
- Problem-solving
- Adaptability
- Teamwork
- Leadership

EXPERIENCE

Millennium COVID Care Center
Addis Ababa - Ethiopia
2020 - 2022

As an assistant medical director at one of the largest makeshift hospitals, I was responsible for the management and coordination of the clinical departments. Additionally I was also responsible for technological innovations, where I created an electronic medication ordering system which brought significant improvement to the clinical care.

PROJECTS

CliniCare EMR
Demo, Github

CliniCare is a team project which was done for ALX's foundation. It is an Electronic Medical Record System which can be implemented in a health facility to record the medical information of patients.

PharmaCare
Demo, Github

PharmaCare is a project I did for my final specialization project at ALX. It is an electronic system to be implemented in both Pharmacies and Healthcare providing centers which leverages the use of **ChatGPT AI's** API to find interaction between medications and advice on danger signs to the patient and the physician.

EDUCATION

Mekelle University
Doctor of Medicine
2012-2019

ALX
Certified Software Engineering - Backend Specialization
2022-2023
