I,Olawale Hadriel Bashir Abaniwonda am an experienced backend ,C# and .NET Web developer with demonstrated experience in the commerce and research industry. I'm also a strong engineering professional focused on Computer Science and Mechanical Engineering from the University of Lagos , Lagos State, Nigeria. My goal is to create robust software, solve real world problems using technology,and grow with my team. I also love being around people who challenge me intellectually for the best output. And i always try to be as humble as possible to those i associate myself with. I am Highly experienced in all aspects of the software development lifecycle from the conceptualization phase through to development and delivery. I have a deep understanding of the entire application lifecycle, agile development methodologies (Scrum), services, databases, design patterns, architecture patterns, object-oriented programming, data modeling, test-driven development (TDD), and domain-driven development (DDD). I have worked on a wide range of projects, from small to large, and have extensive knowledge of Microsoft technology stack, including C#, http://Asp.Net, .Net Core, .Net Framework, WPF, WinForm, SQL, EF Core,.Net Maui and Xamarin, as well as Microsoft Bot Framework, Web Services, Restful API, Azure Cloud, and Cognitive Services. Worked Hands-On on building out various libraries, frameworks, and modules, including Order Processing Systems, Data Driven, and Analytics Systems, Facility Management Systems, and more, with Scalability and Maintainability in mind for high traffic situations, in an Agile Environment using Scrum methodologies. I am also experienced in other technology stacks like Node.js + Express framework, JavaSript, Python, PHP,Ruby on Rails etc. I have experience in DataBase design and development using SQL queries and ORMs. I have worked with SQL and NoSQL databases like SQL Server, MySQL, SQLite, MongoDB, and Dynamo DB. For web development, I've worked with HTML, CSS (Sass), JavaScript, TypeScript,Razor and Net Maui. I am familiar with JavaScript frameworks like Angular, React, and Vue. I also excel at machine learning and natural language processing and am often involved with AI-related natural language processing projects. While working primarily in the tech industry, I have learned how to deliver highly scalable, secure, and fast critical software systems. I spend my free days working on the Architecture and the Event Storming of my startup, Essen Technologies I'm most easily accessible via mail or on twitter Here's a link to my GitHub,Twitter and my bio website GitHub => https://GitHub.com/hadrielwonda Twitter => https://twitter.com/w_abany?s=21 Bio => https://hadrielwonda.netlify.app

## Work Experience

### Senior Backend Developer
Uridium Technologies - Lagos
January 2023 to Present

Was involved in the build and maintencance of Scrum projects for Uridium's client with high quality high scalable software

### Senior Backend Developer
Assets and Resources Management Holding Company - Lagos
January 2023 to Present

I lead an agile team ofdevelopers in building theU-Invoice feature for ARM to allow financial freedom to clients

### Senior Backend Developer
Octave Inc. - Lagos
December 2022 to Present

I was involved in the building,maintenance and improvement of the architectural structure and codebase for real-time analytics,anomaly notifications and MLOps integration for Melody AI as well as the maintenance of all the company's softwares

### Senior Software Engineer
Sustain - Lagos
September 2022 to Present

Led the creation,scaling,improvement,optimization and maintenance of the Sustain web application as well as the LifeBox Labs web application

### Founder & CEO
Essen Technologies
February 2022 to Present

Lead and worked on server side functionality,scaling and development and oversaw the required data collection and storage systems' development. I also oversee software versioning and updates as required

### Lead Software Engineer
XR Net - Lagos
January 2022 to Present

I lead the continuous deployment, development and integration of the VR technologies used by XRNet and tackled bugs and challenges as well as included innovative functions

### Student Ambassador and Software Developer
RiseVest
January 2020 to February 2022

At Risevest I was able to learn about the creation and maintenance of a web app as well as improving user experience and the integration and maintenance of a payment gateway and withdrawal authorization.

### Intern
New Horizons Computer Learning Centers
July 2017 to August 2018

As an intern shortly after my graduation I was privileged to work under my tutors as a junior Microsoft development teacher teaching MySQL, intro C#, windows forms and .NET core

## Education

### Bachelor's degree in Mechanical Engineering in Mechanical Engineering
University of Lagos
2018 to Present

**High School Degree in In Sciences**
Faith Academy Goshen - Abuja
July 2011 to July 2017

The University of Lagos - Lagos

## Skills

- Event Planning
- Presentation Skills
- Interpersonal Communication
- .NET Framework (10 years) (10+ years)
- C# (10 years) (10+ years)
- WinForms (4 years)
- Java (3 years)
- Node.js
- Express.js
- Business Process Improvement Wale Abaniwonda -
- C# (10+ years)
- Azure (3 years)
- Python
- MATLAB (2 years)
- AutoCAD
- Tutoring
- Research
- AWS (3 years)
- Xamarin (4 years)
- SQL (10+ years)
- ASP.NET (10+ years)
- .NET (10+ years)
- Git
- C# (10+ years)
- AWS
- Azure
- C#
- Microsoft SQL Server
- REST
- .NET Core
- SQL
- ruby on rails (6 years)

## Languages

- Eng - Fluent
- Austrian German - Intermediate
- Hausa - Intermediate
- Italian - Beginner
- French - Intermediate

## Certifications and Licenses

### New Horizons Microsoft Programming Certificate
August 2017 to Present

Certification to show my mastery of WPF applications, ASP.NET Core,Razor Web Pages,Domain Driven Design,CQRS,XML,gRPC,REST API,C# and more Microsoft Technologies

### HNG Internship
October 2020 to Present

Certification to enforce my abilities as a backend developer

### Cybrary Cisco Certified Network Associate (CCNA)
December 2018 to Present

I completed the 20 CEU/CPE and training provided by Cybrary

## Additional Information

Cert. Number: 30335
Issuer: New Horizons
